POST #1

Are you or anyone you know a K-12 student? Do you have some great ideas for how humans can live and thrive on Mars?

We challenge YOU to participate in The Mars Innovation Challenge!

This is a solo or team based challenge open to all students all over the world in K-12, ages 5-18!

Register by submitting your entry and solve a real-world problem faced by the future explorers to Mars and present an innovation to help problem solve for humans surviving, living, and thriving on Mars.

All eligible teams will receive an Explore Mars Completion Certificate and have their presentations shared on our social media platforms and will be invited guest to the 2023 Human to Mars Summit!

The overall (1st place) winner (individual/team) of the Mars Innovation Challenge will receive a cash award of \$2400* and an invitation* for the student/team and one chaperone to present their winning Mars Innovation Challenge Solution in person at the 2023 Humans to Mars Summit

Submissions open until April 24th (*extended*)!
